

3M Entrance Matting System

The 3M Entrance Matting System is designed to stop dirt and moisture at the door, helping keep floors clean throughout your entire facility. It's called a system because it's more than just a single mat. It consists of different types of mats, each doing a specific job to help keep your building clean. The matting is available in many sizes, colors and constructions to fit any décor and traffic level. 3M Entrance Matting System provides:

Better Looking Floors

Continually provides a cleaner floor at the entrance and throughout the facility.

Cleaner Floors

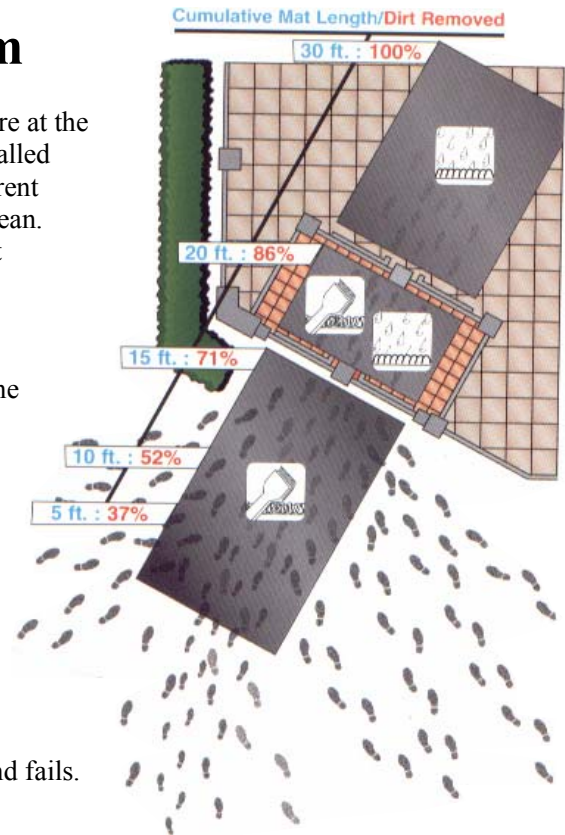

Helps protect the floor from damage due to tracked-in soil and other debris.

Easy Maintenance

Reduces the time and effort needed to clean and maintain floors.

Safer Floors

Reduces dirt and water on hard floors, which can help reduce slips and falls.

There are two basic types of matting within the 3M Entrance Matting System:

Scraper Matting

This outdoor and foyer matting is your first line of defense, scraping dirt and moisture from shoes. 3M offers two types of Scraper Matting:

- Vinyl looped construction that allows dirt and moisture to fall below the matting surface, keeping shoes clean and dry. An ideal first mat for your matting system.
- Open "Z", vinyl construction with peaked edges that provide excellent scraping action. For foyers and recessed wells.

Carpet Matting

Carpet matting is the last line of defense in the 3M Entrance Matting System. Designed for indoor use, this matting removes moisture as well as dirt not removed by the outdoor scraper matting. 3M carpet matting has a patented dual-fiber design with:

- Coarse polypropylene fibers that scrape soil particles from shoes.
- Fine nylon or polypropylene fibers that help wick away water.

3M Personalized Matting

Get Personal... Personalize your 3M Floor Matting with the Inlay Graphics Program from 3M. Inlay graphics is a high quality process by which the design or logo is inserted into the mat using the same materials as the base mat, thereby maintaining the mat's functionality. The inlay graphics method is designed for mats used in medium or high traffic areas. Choose the functional mat that best fits your traffic needs, then choose from the Personal Design Colors to personalize the mat with your own logo or design.

3M Nomad Scraper Matting 8100

For heavy traffic areas up to 1,000,000 people per year. Provides resistance to grease and oil, allowing the mat to continue to perform when these are present. Vinyl loops scrape shoes, allowing dirt and moisture to fall into the matting and not be tracked into the building.

8100 (Unbacked) - Unbacked construction allows dirt and moisture to fall through the matting helping to keep feet clean and dry and allowing for easy clean up.

Available **Base Mat Colors** include: Ebony, Silver, Slate, Concrete, Chestnut, Dove, Blue, Red, Forest, Seagrey, Cabernet

Available **Inlay Graphics Colors** include: Ebony, Silver, Slate, Concrete, White, Chestnut, Dove, Blue, Red, Yellow, Forest, Seagrey, Cabernet

3M Nomad Carpet Matting 8850

For heavy traffic areas up to 1,000,000 people per year. Loop carpet matting features patented dual-fiber design: large, crush-resistant polypropylene fibers that scrape, remove and hide loose dirt; and small nylon fibers that wick away water from foot and wheeled traffic. Random pattern provides an attractive look and allows sand, salt and dirt to blend into the pattern until it is removed. Solution-dyed fibers resist fading and staining keeping mat looking good longer. Vinyl backing will not stain the floor and keeps dirt and moisture from falling through the mat onto the floor underneath. Low profile allows foot, cart and wheelchair traffic to move easily over the mat. Remains looking good and performing well under even the heaviest traffic conditions and after frequent cleanings.

Available **Base Mat Colors** include: Ebony, Slate, Dove, Blueberry, Checkers, Spruce, Burgundy

Available **Inlay Graphics Colors** include: Ebony, Silver, Slate, White, Brown, Carmel, Blueberry, Blue, Red, Gold, Yellow, Green, Spruce, Burgundy
