

RADIUS 36”

Fast, efficient sweeping—clean floors quicker with a wide 36” sweeping path.

The Radius 36” is battery powered making the operation of movement easy and fantastic. The built-in charger allows users to charge the machine quickly and easily. The improved productivity allows for the sweeping of all types of surfaces faster—either indoor or outdoor. The high-efficiency filtration system captures fine dust particles to keep the air you breath clean. The intuitive control panel display is simple for the operator to understand and easy to use. The lightweight, removable hopper and dust bin lifts out for easy emptying and cleaning. The one side broom allows for fast, and easy cleaning next to walls and in corners.
