

## Chariot

Rider Battery Scrubber

Chariot significantly increases productivity and cleaning quality by reducing operator fatigue. Chariot's small footprint and ultra-tight turning radius make it ideal for use in busy, complex building layouts without disrupting work flow. The intuitive function and steering controls; newly designed solution tanks that pack maximum capacity into minimal space, and an easy to exchange battery pack option significantly increase run time. The Chariot's unique Aqua-Mizer extends the time between drain and refills by up to 50%.

## Lightning

Burnisher

Easy-to-use controls simplify training and provide more consistent results. Dust control system eliminates the need for dusting after burnishing for additional labor savings. Dust-free burnishing also provides a healthier work and customer environment, especially in health sensitive areas. Productive battery operation offers the convenience of continuous operation without the limitations of a cord-operated machine. The Traction Drive model provides the convenience of cleaning speeds of up to 230 feet per minute. Lightning's contoured design improves operator sightlines for added safety.
