

Radius 24

Sweeper

Sweep carpet or hard floor with the convenience of battery power. An ultra-low noise level of 55 dBA won't disturb and the machine's compact size makes the Radius small enough to fit into tight spots and to easily maneuver in congested areas. The intuitive control panel display is easy to use and the lightweight, removable hopper lifts out for easy emptying. High-efficiency filtration system captures fine dust particles to keep air clean. One side broom allows for fast, easy cleaning next to walls and in corners. A 24-inch cleaning path combined with cordless operation enables the operator to quickly and easily get the job done.

Order #: E094-46
 Manufacturer #: RWB241

Radius 28

Sweeper

Sweep carpet or hard floor surfaces with the convenience of battery power. High efficiency filtration system captures fine dust particles to keep the air clean. Lightweight, removable hopper lifts out for easy emptying. Lightweight compact design is easily maneuverable around congested areas, even through standard doorways. Productive 28 inch cleaning path. Quiet operation.

Order #: E029-56
 Manufacturer #: RWB281

Radius 32

Sweeper

Two counter rotating cylindrical brushes throw debris into the hopper. Dual side brushes pick-up debris on both sides of the machine. Hopper (1.4 cubic feet) is filled from the top for greater capacity. Collapsible handle for compact easy storage.

Order #: E029-9
 Manufacturer #: RM32

Radius 34

Sweeper
Gas/Battery

Self-propelled battery or gas powered engine for greater operator comfort. Lightweight, removable hopper easily rolls out to dump into trash container or plastic bag. High efficiency dust collection system captures fine dust particles. Easy access for routine maintenance by removing one cover. Increased battery size provides additional run time on battery powered model. Top loading sweeping system maximizes hopper capacity and securely contains debris.

Order #: E029-55
Manufacturer #: RWB341

Radius 47

Sweeper
Gas/Battery

Choice of battery or gas engine power. Dual side brushes pick up debris on both sides of the sweeping path. Compact design easily cleans in tight, congested areas. Easy to understand controls simplify training and use. Sweep hard floor or carpet, indoors or outdoors, with greater productivity.

Order #: E029-47
Manufacturer #: RRB471

Tracer FS

Sweeper

Rack and pinion steering improves handling ease. Floating I-beam suspension improves operator comfort and reduces vibration to increase machine uptime. An optional cylindrical side broom provides the same sweeping action as the main broom to increase the effective sweeping path and dramatically improve productivity. Tracer's Comfort Zone is an easy-to-use driver compartment which improves operator efficiency.
