

Clean and Sanitize frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, sinks, etc.

If surfaces are dirty, clean them:
Use detergent or soap and water prior to sanitizing.

Protect surfaces to inhibit the growth of odor causing bacteria.

INSTRUCTIONS

Remove any loose debris and where applicable, wipe surface with damp rag.

1 CLEAN

Using **EnviroSystems[®] Green Kleen 420-4** (ready to use):

- Hold sprayer about eight inches from surface to be cleaned.
- Spray on and wipe it off!

On extremely dirty surfaces, allow to penetrate and leave on surface for 2-3 minutes. Apply second spray if needed, and wipe.

- Wipe surface with clean, damp sponge or cloth.

- For removal of built-up, caked on grime, or for best results when cleaning rough irregular surfaces, spray on, agitate with brush, rinse and wipe.

2 SANITIZE

Using **EnviroSystems[®] Sanitizer 440** (EPA REG. NO. 1839-86-53053)—has demonstrated effectiveness against viruses similar to 2019 novel coronavirus (SARS-CoV-2) on hard, non-porous surfaces. Therefore, this product can be used against SARS-CoV-2, the novel coronavirus

that causes the disease COVID-19, when used in accordance with the directions for use against Adenovirus Type 5 on hard, non-porous surfaces. Refer to the CDC website, <https://www.cdc.gov/coronavirus/2019-ncov/index.html>, for additional information:

- Add 3.5 ounces of this product per 5 gallons of water (or equivalent dilution). Apply solution with a cloth, sponge, or hand pump trigger sprayer to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes.
- Let dry

3 PROTECT

Using **EnviroSystems[®] BioShield[®] 75**:

- Using a trigger sprayer, spray the entire surface area 4"-6" from the surface making sure the surface is completely covered.

- Let stand until dry (5-10 minutes)
